# HANGING BASKET

## Care Tips

-  When top of soil is slightly dry, water well.
-  Requires 4-6 hours of daily sunlight.
-  May use a balanced fertilizer every 2 weeks.
-  To maintain & promote growth, Pinch off any flowers that have finished blooming.
-  Place outside when temperatures reach 10°-15°C.

(Mixes may vary)

# PATIO PLANTER

## Care Tips

-  When top of soil is slightly dry, water well.
-  Requires 5+ hours of daily sunlight.
-  May use a balanced fertilizer every 2 weeks.
-  To maintain & promote growth, Pinch off any flowers that have finished blooming.
-  Place outside when temperatures reach 10°-15°C.

12" POT

(Mixes may vary)

# STRAWBERRY

# BASKET

## Care Tips

11" BASKET

-  Water thoroughly until water runs out the bottom.
-  Strawberries require full sun.
-  Fertilize weekly with a water-soluble fertilizer such as Miracle-Gro, and boost growth every 3-4 weeks with our Flower and Veggie 10-15-19 Fertilizer.
-  Strawberries prefer well draining soil. To maintain and promote growth, be sure to harvest berries promptly.
-  Place outside when temperatures reach 10°-15°C.

# 10-PK GERANIUMS

## Care Tips

-  Geraniums need to be wet, but not soggy. Do not let roots sit in water. Water until the water starts running out of the bottom of pot.
-  Requires 4-6 hours of direct sunlight.
-  May use a balanced fertilizer every 2-3 weeks.
-  To maintain & promote growth, pinch off any flowers that have finished blooming.
-  Place outside when temperatures reach 10° to 15°C or indoors if it will freeze overnight.

10-PACK FLAT

# 10-PK PETUNIAS

## Care Tips

-  When top of soil is slightly dry, water well.
-  Requires 5+ hours of direct sunlight. Morning sun is okay.
-  May use a balanced fertilizer every 2 weeks.
-  To maintain & promote growth, pinch off any flowers that have finished blooming.
-  Assortment prefers well-draining soil.
-  Place outside when temperatures reach 10° to 15°C.

10-PACK FLAT

# 10-PK MARIGOLDS

## Care Tips

10-PACK FLAT

-  When top of soil is slightly dry, water well.
-  Requires 5+ hours of direct sunlight. Morning sun is okay.
-  May use a balanced fertilizer every 2 weeks.
-  To maintain & promote growth, pinch off any flowers that have finished blooming.
-  Assortment prefers well-draining soil.
-  Place outside when temperatures reach 10° to 15°C.

# INDOOR FOLIAGE TRIO

## Care Tips

6" POTS

-  Tropicals do not need a lot of water. Wait until the soil on top 2 inches has dried completely before watering again.
-  Prefers humid environments - keep indoors with temperatures over 15°C. Place in areas with indirect sunlight (near windows with blinds is perfect).
-  To maintain & promote growth, pinch off any flowers that have finished blooming.
-  Benefits from periodic fertilizing every 2-3 weeks from Spring to Summer.
-  Use a high acidic, loose, well-draining soil that is high in organic matter.

\*duplicates/substitutes may occur\*

# 10-PK HERBS

## Care Tips

-  Water thoroughly when top of soil is dry.
-  Herbs require full sun.
-  Fertilize with a balanced fertilizer.
-  Plant in well-draining soil. To maintain and promote growth, snip/pinch the stems.
-  Place outside when temperatures reach about 10° to 15°C.

10-PACK FLAT

\*duplicates/substitutes may occur\*

# 10-PK VEGGIES

## Care Tips

10-PACK FLAT

-  Water thoroughly when top of soil is dry.
-  Veggies require full sun.
-  Fertilize with a balanced fertilizer.
-  Plant in well-draining soil. To maintain and promote growth, snip/pinch the stems.
-  Place outside when temperatures reach about 10° to 15°C.
-  Tomatoes do not like the rain. Move them under a cover or place under a clear plastic.

\*duplicates/substitutes may occur\*

# BOSTON FERN BASKET

## Care Tips

-  Water thoroughly until water runs out the bottom. Mist often to increase humidity.
-  Ferns thrive in humid environments. If outdoors, hang in shady area. If indoors, place near a window that is not exposed to full sun or a draft.
-  Fertilize once a month with a water soluble fertilizer mixed to half strength. Don't apply fertilizer to dry soil.
-  Snip off brown fronds to create space for growth.
-  Bring inside if weather gets colder, windy, or if there is frost.

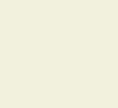

10" BASKET

# PATIO ROSE PLANTER

## Care Tips

-  When it is cooler, water deeply every 5-7 days.
-  When it is warmer, water on a daily-basis.
-  To avoid mildew, do not overhead water; keep leaves and flowers dry.
-  Requires 6+ hours of daily sunlight - morning sun is okay.
-  Using a liquid fertilizer, water roses first, add the liquid fertilizer, then water a little more so fertilizer reaches the roots.
-  Prefers a well-draining soil and benefit from Mulching during early Spring each year
-  Can be kept outside year-round, but needs protection from freezing (roots can be insulated over the Winter/kept indoors)

2 GALLON POT

\*colors cannot be requested\*

# LAVENDER BOWL

## Care Tips

-  Water thoroughly when the top 2-3 cm of soil is dry; do not let roots sit in water.
-  Requires full sun (6-8 hours daily) for best fragrance and flowering.
-  Fertilize once a month with a light, water-soluble fertilizer; avoid high nitrogen fertilizers.
-  Prefers very well-draining soil to prevent root rot.
-  Lightly trim after flowering to maintain shape and encourage new growth.
-  Place outdoors once temperatures consistently stay above 10°C.
-  **Not pet-friendly** – mildly toxic if ingested by dogs and cats.
