FAVOURITE

Wave Petunias

A very popular cascading Wave petunia is a favourite when creating your own basket or container. They come in 2 beautiful eye-catching colours of Purple and White.

When top of the soil is slightly dry to the touch, water well until it runs out the bottom of the basket or container.

Place in a location with at least 5 hours of direct sunlight per day. Morning sun is OK.

Fertilize with a balanced fertilizer such as our Flower and Veggie 10-15-19 fertilizer.

Petunias prefer well draining soil. To maintain and promote growth, be sure to pinch off any flowers that are finished blooming.

Place outside when temperatures reach about 10° to 15°.
